Question 2: A new category was created called PEP (politically exposed person). Also, a new bool property `IsPoliticallyExposed` was created in the `ITrade` interface. A trade shall be categorized as PEP if `IsPoliticallyExposed` is `true`. Describe in at most 1 paragraph what you must do in your design to account for this new category.

Criar Classe PEP implementando Interface ITrade, colocando a regra se IsPoliticallyExposed é verdadeiro dentro do método CheckCategorized e informando a variável OrderPrecedence. Por fim ler um 4º elemento nas n linhas de entrada dos trades, passar como parâmetro no método Categorize e dentro do método atribuir a variável da classe genérica.
